

**The Cooperative Education Department  
Holy Family University**

**Where Have All the Co-ops and Interns Gone?**

☺ *The class of 2009 had a 93% placement rate; that is, 93% of those students who had either a co-op or internship experience, were either hired at the same site, or secured a position in their major due to the co-op/internship experience on their resume. The current mean across the country is 76% according to the National Association of Colleges and Employers. Therefore, Holy Family co-ops and interns must be doing something right! Check out our Alumni Booklet on-line.*
